## Industry Salute to Interns

Offshore Energy Center's 6th Annual Salute to Industry Interns was held at the Westin Houston Memorial City Hotel July 19, a new venue for the event. The full-day seminar is designed especially for summer interns to the oil and gas industry to motivate, educate and entertain the industry's future members. This year 168 interns gathered to hear ten speakers, including a panel session and keynote speaker as well as a popular returning speaker, **Marilyn Moats Kennedy**, President, Career Strategies, who discussed Power Politics in Organizations.

Throughout the day door prizes were awarded, including televisions, iPads, cameras, docking stations, iPods and gift cards. Interns formed 21 teams and participated in an interactive activity, *Hear Hear Engineer*, from OEC's Project E<sup>3</sup>: Expanding Energy Education activity book.

Thanks go to the companies who sponsored the interns: **Anadarko; Apache; Chevron; El Paso; Energy XXI; EnerVest; FMC Technologies; Halliburton; Macquarie Capital; Noble Energy; Schlumberger; Shell; and Statoil.**

This year also featured two new emcees, **Brandon Bayles** with Halliburton, and **Ben Jackson**, an oilfield magician, who opened the event, which was followed by the keynote speaker, **Helge Haldorsen**, Vice President of Statoil.

After a buffet lunch, Kennedy opened the afternoon session. A panel discussion on the life cycle of oil and gas development followed. Panelists included **Tom Scoulios** with Western Geco discussing seismic; **Kelly Barnes**, Common Resources, discussing land and legal aspects; **Lola Ani** with ExxonMobil explaining the nuances of wellbore construction; **Bill Townsley** with Shell explaining the intricacies of developing and producing hydrocarbons; and **Bryan Neskora** with El Paso discussing transportation and marketing of the end product.

Magician **Ben Jackson** presented a discussion on business etiquette, and OEC Executive Director **Sandra Mourton** made closing remarks about the Center and the many career opportunities in the offshore oil and gas industry. A reception concluded the day allowing the interns to network with several professional associations who were exhibiting at the event. Exhibitors included **American Association of Drilling Engineers (AADE); American Petroleum Institute (API); Oilfield Helping Hands (OHH); Oilfield Christian Fellowship; Society of Naval Architects and Marine Engineers (SNAME); and Hart Energy Publishing.** Hart also will be reporting on the event in one of their future magazines.

A total of 168 students attended OEC's 6th Annual Salute to Interns, which featured a keynote speaker, panel discussion and several presentations.

Interns peruse the results of *Hear Hear Engineer*, an activity from OEC's Project E<sup>3</sup>: Expanding Energy Education, in which one group of interns constructed a structure from Legos, and wrote instructions for a second group to build an identical structure.

Keynote speaker Helge Haldorsen, Vice President of Statoil, left, with emcee Ben Jackson, an oilfield magician, who also made a presentation on business etiquette.

Panelists this year discussed the Life Cycle of Oil & Gas, from seismic to transportation and marketing of the final product.

### OEC 8th Annual Invitational Fishing Tournament Oct. 20-21

OEC's 8th Annual Invitational Fishing Tournament will be held Thursday and Friday, Oct. 20-21. Registration begins Oct. 20 at 4:30 p.m. until 8:00 p.m. at the *Ocean Star* located on 20th Street and Harborside Drive (Pier 19) in Galveston. Pre-tournament festivities run until 9:00 p.m., including refreshments, exhibits and time to tour the *Ocean Star*, and dinner at 6:30 plus a live auction and door prize drawings.

The tournament will begin Friday morning 30 minutes before sunrise with weigh-in at 3:00 p.m. followed by dinner, more door prize drawings and the awards ceremony. A continental breakfast in the dining tent will be served before beginning the day's fishing in Galveston Bay. A spouse's brunch will be at 10:30 a.m.

This year's tournament underwriters are **Baker Hughes and Atkins**.  
**Ted Ryan, SSP Offshore**, is Tournament Chairman.

Platinum Teams can enter the tournament for a sponsorship of \$7,500 for a 2-4 person team, including a host.

This year's tournament hosts include:

**Michael Ditchfield**

*Petrobras America Inc.*

**Alberto Cavallini**

*Well Operations Manager, ENI Petroleum*

**Dan Dinges**

*Chairman, President & CEO, Cabot Oil & Gas*

**Keith Elliot**

*VP Major Projects, Noble Energy*

**Russell Ford**

*Executive VP, Onshore Gas, Shell Upstream Americas*

**Paul Koeller**

*Vice President Consulting & Project Manager, Halliburton*

**Ryan Lance**

*Senior Vice President, ConocoPhillips*

**George Morris**

*COO, ATP Oil & Gas*

**John Panteleo**

*Vice President, Gulf of Mexico, Stone Energy*

**Roger Pinkerton**

*Director North American Exploration, Marathon*

**Glenn Schaaf**

*Vice President, Drilling & Production, ConocoPhillips*

**Scott Sigurdson**

*Vice President, Drilling & Completion Engineering, BP*

**Alan Stubblefield**

*Sr. Vice President, Operations, Southwestern Energy*

**Steve Thurston**

*Vice President, Exploration, Chevron*

Robert Drummond

### Final 2011 OEC Executive Speaker Series set for Oct. 26

**Robert Drummond**, North American President for Schlumberger, is the final speaker in OEC's 2011 Executive Speaker Series at the Petroleum Club in downtown Houston beginning at 11:30 a.m. Tickets are \$50 per person, or \$500 for a table of 10.

This year's sponsors are **Apache, Atkins, Baker Hughes, Chevron, Schlumberger, Shell, Stone Energy and Weatherford**. Sponsorships are available for the 2012 Executive Speaker Series. Contact OEC at 281-679-8040 for sponsorship information. Sponsors will receive a premium table for 10 for each luncheon, admittance for two persons to the VIP reception with the speakers prior to the luncheon, and recognition on event signage, the OEC website and in *The Star*.

Drummond began his career at Schlumberger in 1984 as a wireline field engineer. His career included a number of key management positions in operations and marketing throughout North America. Before assuming his present position in January 2011, he served as President of North America Offshore and Alaska. Prior to that, he was Vice President/General Manager Gulf of Mexico; Vice President Global Sales; Vice President/General Manager U.S. Land; and Vice President/General Manager Atlantic and Eastern Canada. He received a degree in Mineral/Petroleum engineering from the University of Alabama in 1983.

# OEC Gala

Guests enjoyed an Under the Sea theme at the 2011 Ocean Star Gala

This year's Hall of Fame Induction Ceremony preceding the Ocean Star Gala honored five Industry Pioneers and four Pioneering Technologies and Technology Pioneers who helped develop the various technologies. **Kurt Abraham** with Texas Alliance of Energy Producers and OEC Chairman **Libby Cheney** were co-emcees during the induction ceremony. This was the first year since the Hall of Fame was established that Bob Scott didn't emcee the ceremony. The OEC wants to thank Bob for the tireless and wonderful job he did for us.

Industry Pioneers inducted into the Hall of Fame this year were **John A. Haeber, John R. Huff, John J. Swoboda, Jr, John C. Wallace, and Marvin Odum, Jr.** The Pioneering Technologies inducted were Production Technology: **Submersible Mobile Offshore Production Units (MOPU)**; Production Technology: **Floating Production, Storage and Offloading (FPSO) systems**; Drilling Technology: **Measurement While Drilling System**; and Health, Safety & The Environment: **The Safety Training Observation Program (STOP)**.

Following a cocktail reception, Ocean Star Gala Chairman **T. Paul Bulmahn** opened the festivities, welcoming the guests and recognizing the Gala's sponsors. He then introduced OEC Chairman Libby Cheney, who presented a brief overview of OEC's and Ocean Star's missions and initiatives, and then presented the Chairman's Award to **Galen Cobb**, OEC's Vice Chairman/Education Outreach and Vice President, Industry Relations for Halliburton Energy Services. Gala Chairman T. Paul Bulmahn presented **Marvin Odum III** the Pinnacle Award. A presentation was made about the MOLU trip to Washington, D.C. and numerous schools.

Gala guests danced and enjoyed the music of Fried Ice Cream.

The 2011 Ocean Star Gala Chairman T. Paul Bulmahn, opened the festivities this year.

OEC Chairman Libby Cheney presented opening remarks at the Gala.

Kurt Abraham was one of the emcees at the pioneer induction ceremony along with Libby Cheney, Chairman of the Offshore Energy Center.

## PINNACLE AWARD

Marvin E. Odum, President of Shell Oil Company and Director Upstream of Royal Dutch Shell's subsidiary companies in the Americas, is this year's recipient of the Pinnacle Award.

Technology Pioneer Committee Chairman Mark Childers filled in for Hall of Fame Chairman Hugh Elkins, who was unable to attend this year's Pioneers induction ceremony.

## CHAIRMAN'S AWARD

This year's Chairman's Award was presented to Galen Cobb, Vice President, Industry Relations for Halliburton, and OEC's Vice Chairman/Education Outreach.

## INDUSTRY PIONEERS

*John Huff was one of the Industry Pioneers inducted into the Hall of Fame.*

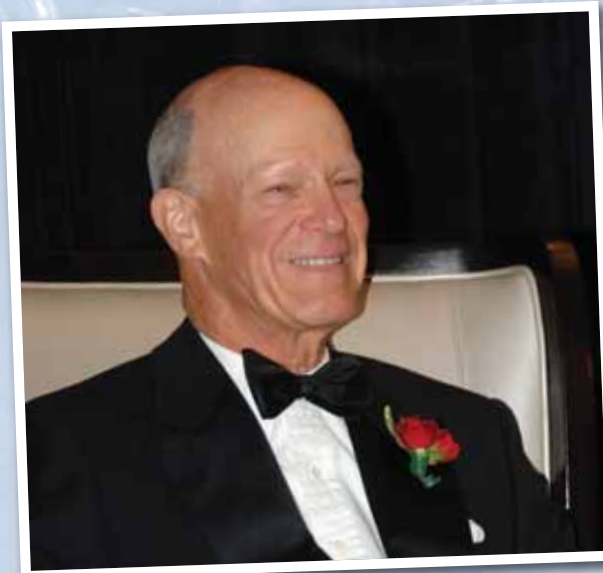

*Lloyd Otteman accepts the Industry Pioneer award from Mark Childers on behalf of John A. Haerber.*

*John J. Swoboda was inducted into the Hall of Fame at the ceremony preceding the Ocean Star Gala.*

*Marvin Odum, Jr. was one of this year's Industry Pioneers.*

*John C. Wallace at the Industry Pioneer induction ceremony.*

## TECHNOLOGY PIONEERS

The Measurement While Drilling (MWD) technology pioneers were, from left, Paul Seaton (accepting for Ralph Spinnler), Francois Rodot (accepting the individual technology award for Jean Claude Raynal, and the company award for Total), Bill Yost (accepting for Baker Hughes), Andy Hendricks (accepting for Schlumberger), and Joel Kiker (accepting for ExxonMobil). Hall of Fame Technology Pioneer Chairman Mark Childers looks on after presenting the awards.

James Wiegand accepted the technology Pioneer Award from Mark Childers for the Safety Training Observation Program (STOP) on behalf of DuPont.

Technology Pioneers for Submersible Mobile Offshore Production Units (MOPU) were, from left, Steve Thurston (accepting for Chevron), David Wood (accepting on behalf of Murphy Oil Corp.) and Moe Plaisance (accepting for Diamond Offshore Drilling).

Accepting the Technology Pioneer award for floating production, storage and offloading (FPSO) systems were, from left, Jose Orlando Azevedo (accepting for Petrobras), John Carter, Marco Beenen (accepting for SBM Atlantia), John Stigter (accepting for Bluewater Energy Services), Leon Vincken (accepting for himself and deceased Pioneer Frank Eijkhout), and Marvin Odum III (accepting for Shell).

# OEC Gala

Jodi and Burt Adams

Some of the attendees at the Ocean Star Gala were, from left, Andy Hendricks, David Waterland, Elaine Waterland, Kjersti Travis, Tim Travis, Bryan Collins and Lori Collins.

Lesa and Roger Pinkerton

From left, Joel Kiker, Harry Newman, Nathalie Newman, Karen Kiker, Bodley Thornton and Karen Thornton.

Some of the Gala attendees, from left are Kim Stewart, Alice Stewart, Jim Nowotny, Donica Nowotny, Stacy Patterson and Nick Patterson.

Dancing to the music of Fried Ice Cream.

Sam and Terry Plunk

Enjoying the Gala are, from left, Steven Roll, Maya Roll, John Wallace, Carol Wallace, Siri Vann and Victor Vann.

The Baker Hughes group at the Gala included Barbara Markum, Roy Markum, Kevin Williams, Melinda Williams, Mary Yost and Bill Yost.

# Ocean Star News

## Ocean Star tours, rentals strong during summer

Oil and gas companies and service companies continued sending employees to the *Ocean Star* to learn about the offshore industry as are elementary, middle and high school classes, Boy Scouts and Girl Scouts, and other companies that rent the facilities for meetings and conferences. Among the companies sending employees for tours of the rig and museum were **Marathon Oil Company** with 69 people, **ConocoPhillips**, which sent a total of 45 employees on two different days, 41 **ExxonMobil** employees on two different days, and 24 people from **Noble Energy**.

Educational groups touring the *Ocean Star* during June included 267 students from **Norwood Elementary School** over two days. Not all were at the *Ocean Star* at the same time, thankfully, as half of each day's contingent also took the harbor tour and then the groups would switch either to the *Ocean Star* or the harbor tour. Another large student group was from **Texas A&M's Sea Camp** and **Sea Camp Kids**, with 102 students. In addition, 15 Cub Scouts from Pack 567 held a workshop and 19 Girl Scouts from **Troop 3465** toured the museum along with an activity.

July tours included employees from **ExxonMobil**, **Hercules Offshore**, **Tetra Technologies**, **Halliburton**, **Baker Hughes** and **National Oilwell Varco**. Other tours included 96 students from Taiwan, sponsored by **Houston Association for Space and Science Education**, who visited the museum over three consecutive Sundays. Also **Cub Scout**

*Ocean Star* Docent James Park leads a group of Cub Scouts on a tour of the rig and museum.

Scouts proudly show off their bugs made during an activity at a Scout Workshop on the *Ocean Star* in July.

## Seascope provides reality for Billy Pugh basket

A new seascope wall covering surrounding the Billy Pugh basket exhibit provided more reality, and making it seem like you're actually being lifted from the deck of a crew boat to the rig.

Recently, Alicia Torben, a friend of the OEC, took her son and three granddaughters to the *Ocean Star*. Riding the basket are, from left, Skyler, Alyssa and Chelsey. Chelsey and Skyler also see how they look working on the rig after they are brought up in the basket.

**Pack 911** and **Girl Scouts of Northeast Texas** toured the rig and **Cub Scout Pack 105** of Mont Belvieu attended a workshop with an activity.

Upcoming events aboard the *Ocean Star* include a site rental by **Fusion Petroleum Technology** with potentially 150 people, a two-day conference rental by **Texas Drilling Association**, and three day rental of the conference facilities by **EDI Investments**, which has taken advantage of the facilities for numerous meetings over several years. Also, OEC's annual Career Fair is scheduled for Dec. 1.

*Ocean Star* Site Manager Ed Henkel was one of the Galveston torchbearers for the Senior Games Torch Relay. The Senior Games were held in Houston this summer.

## Need a presentation piece to help celebrate a retirement, anniversary or outstanding performance?

The *Ocean Star* gift shop has a great selection of oil themed awards that can be customized for your presentation needs. If you place your order before October 30th and mention this ad; the *Ocean Star* will provide a customized plaque with up to three lines of text for no charge.

**#1214 Animated Offshore Rig Award**  
8.5" x 10" x 16" \$650.00

This is the ultimate award. The gold plated "wind-up" offshore rig features a helicopter with rotating blades and a crane that rotates 360 degrees. It sits on a walnut base that is perfect to hold a brass plaque with your custom message.

### #998 Derrick with Animated Pump Jack Award

8" x 5 3/4" x 13" \$325.00

A gold plated brass derrick and AA battery push button powered animated pump jack are mounted on a walnut base.

### #577 Animated Pump Jack Award

9" x 5" x 7" \$265.00

This gold plated brass pump jack is a replica of the Bethlehem Series 60 pump jack. It is mounted on a walnut base and is powered by a AA battery push button.

### #1215 Derrick Award

6" x 5 1/2" x 13" \$165.00

A 12" tall gold plated brass derrick mounted on a walnut base.

### #1262 Pewter Drill Bit Award

4" x 4" x 6 1/2" \$225.00

This pewter tricone drilling bit is mounted on a black wood base.

Ryan's current scoutmaster, Mike McKenna, was in the hospital during the awarding of Ryan's Eagle Scout Medal but he was Skyped into the ceremony.

## Good things do come in threes

During August, the *Ocean Star* was rented for a unique celebration: the award of an Eagle Scout Medal, celebrating an 18th birthday, and graduating high school while looking forward to attending college in the fall. What's unique about these three events is that the honoree was the same person, **Ryan Kyle Beatty**. Ryan was attending a Boy Scout merit badge workshop at Moody Gardens in Galveston earlier this year while his parents, Art and Dawn Beatty, visited the Strand area. Art noticed the *Ocean Star*, they decided to visit and were impressed with the museum and its exhibits. After

enquiring whether the rig could be rented for receptions, dinners and other events, they subsequently rented the entire rig for August 13, which also included a catered dinner and scavenger hunt along with the Eagle Scout Medal and other celebrations. About 65 people attended the festivities. Ryan's brother Christopher emceed the event.

Ryan graduated from James E. Taylor High School in the Katy ISD on June 4, became an Eagle Scout on June 15 and celebrated his 18th birthday June 25. He currently is attending LeTourneau University in Longview, Texas, studying Mechanical Engineering. *(There's an Ocean Star connection as R. G. LeTourneau's Industry Pioneer plaque is in the Hall of Fame on the rig.)*

The Scoutmaster who presented the Eagle Scout Medal to Ryan, Michael Behounek, is from Ryan's original Troop 13 from the Mustang District. His Scoutmaster from Troop 584 from the Texas Skies District, Mike McKenna, was undergoing treatment for cancer and was unable to attend but he was Skyped into the ceremony.

Ryan Beatty, left, receives his Eagle Scout medal from his original scoutmaster Michael Behounek.

# Education Outreach

## Busy summer for gifted and talented workshops, facilitators conference

OEC conducted four workshops this summer for teachers of gifted and talented students, plus a facilitators' conference in June. The facilitators' conference held June 26-28 attracted 11 teachers from nine school districts as far away as Tyler and Kilgore, Texas. Several of the school districts were represented at the facilitators' conference for the first time, including Kilgore, Brenham, Conroe, Fort Bend and Huntsville. Teachers attending the conference also represented schools in Tyler, San Antonio, Pasadena, TX, and Baytown. These teachers can now organize and facilitate teacher workshops in their areas.

About the facilitators Conference, **Tracy Drury** from Kilgore ISD said, "This was a wonderful learning experience. I am excited to share the great activities with the teachers in my district. This is one of the best workshops I have attended."

**Barbara Risenberg** from Fort Bend ISD agreed: "The entire conference was wonderful and time well

*Teachers of gifted and talented students work on an activity at a workshop held at Shell's facilities in Houston.*

*Another workshop for teachers of gifted and talented students was held this summer at the Cy-Fair ISD Region 4 Science Resource Center. Kirah Diaz and OEC Education Director Doris Tomas facilitated the workshop.*

*Teachers work on a 3D modeling activity at the Facilitators Conference.*

spent. I'm eager to set up a workshop in my district. I loved every minute, and the presenters were superb!"

**ConocoPhillips** sponsored the four workshops for teachers of gifted and talented students this summer. The first was held in July at the **Cy-Fair Science Resource Center** with 21 teachers attending. Another was held the next day at Shell's Woodcreek facility in Houston with 27 teachers in attendance, and a third workshop conducted at Shell on August 5 with 25 teachers.

OEC entered into a new partnership with the **Region 4 Science Collaborative**, enabling OEC Education Director **Doris Tomas** and **Kirah Diaz** to facilitate a GT workshop July 25 for 28 teachers. A Playing With Petroleum Workshop for this group was held Sept. 17 aboard the *Ocean Star*.

The GT workshops garnered huge praise from the teachers. "Excellent hands on experience that will be useful in the classroom," said **Susan Little**, a teacher with Houston ISD. **Ida McCoy**, also from Houston ISD said, "This workshop was packed with excellent activities that are immediately useful and lend themselves to excellent differentiation. They were so interesting that we were hesitant to stop for lunch!"

*Teachers at a Facilitators Conference on the Ocean Star tour the rig and museum.*

# Education Outreach

## MOLU receives renovation for its Washington, D.C. visit

OEC believes its creative educational programming, specifically the Mobile Oilfield Learning Unit (MOLU), can provide opportunities to encourage students to become interested in STEM. In an effort to promote the importance of these studies and the value of the oil and natural gas industry to the U. S. economy, OEC took the MOLU to Congress.

Consequently, the popular MOLU underwent a \$60,000 renovation in preparation for its trip to Washington, D.C. this fall. Included in the renovation was the name change to Mobile Oilfield Learning Unit to reflect a more comprehensive title.

Following the facelift, the MOLU left Houston on September 6 and returned October 12, with stops at schools in various states along the route before it reached its ultimate destination, the Rayburn House Office Building in Washington, DC on September 22 to help educate members of Congress and their staff about the offshore oil and natural gas industry.

The Offshore Energy Center expresses its gratitude to the **American Petroleum Institute (API)**, **ConocoPhillips**, **Deep Gulf Energy LP**, **Noble Corporation**, **Noble Energy** and the **National Ocean Industries Association (NOIA)** for their assistance with this endeavor.

Along the way to Washington, and on the return trip to Houston, the MOLU's first visits were in Louisiana to **Plantation Elementary School** in Lafayette, **Holy Cross** and **ME Norman Schools** in Morgan City, and **St. Dominic School** in New Orleans. The MOLU also made visits at **Council Traditional School** in Mobile, Alabama; **G. W. Carver School** in Richmond Hills, Georgia; **Beech Spring** and **Berry Shoals** schools in Duncan, South Carolina; and then on to Washington, D.C. to **Walker Jones Elementary** before arriving at the Rayburn House Office Building for a day.

Following its visit to Congress, the MOLU journeyed to Alexandria, Virginia for 2½ days at **Glasgow Middle School** and then on to **Sandston Elementary** and **Donahoe Elementary** in

MOLU Manager Michael Nevels tells a group of students what to expect as they rotate through the MOLU at Berry Shoals Elementary School in Duncan, SC.

Learning about microorganisms.

Exploring for oil.

Operating the robotic arm is a favorite activity.

Sandston, Virginia. Charlotte, North Carolina was next on the itinerary for a stop at **Randolph Middle School**; Montgomery, Alabama to **Floyd Middle School**; and to **St. Andrew Episcopal** in Ridgeland, Mississippi. Winding down its journey home, the MOLU stopped at **Archbishop Shaw High School** in New Orleans and at **LSU Laboratory School** in Baton Rouge.

**Michael Nevels**, MOLU Manager, drove the MOLU trailer on its nearly six-week journey. He flew back to Houston a couple of weekends for much needed R&R during this extremely busy excursion. Michael delivered the MOLU to the schools, set up the exhibit and managed the visits, including orientation with teachers, and then conducted the event.

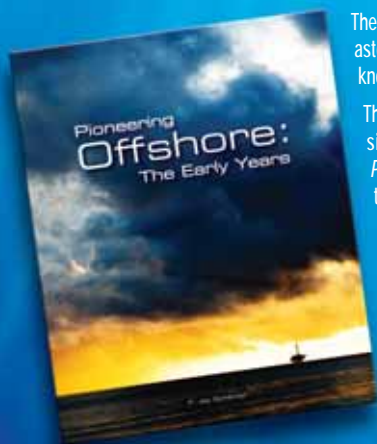

The MOLU is a \$1.2 million traveling educational exhibit consisting of six self-contained components with curriculum-based, hands-on learning activities about earth science and energy topics. The educational content of each component meets state and national education standards. Prior to the visits, pre- and post-visit materials are forwarded to the schools for enhancement of the learning experience. Since the introduction of the program in 2008, approximately 23,000 students have experienced the MOLU program in 187 schools across Texas. The MOLU is intended to help provide factual information about the oil and natural gas industry to the public.

OEC Board member Randall Luthi, President of the National Ocean Industries Association (NOIA) in Washington, and some of the staff from the American Petroleum Institute (API), run through a MOLU station.

Rep. Doug Lamborn from Colorado, left, tries his hand at grabbing a foam ball with the robotic arm as Jack Gerard, API President, looks on.

The offshore petroleum industry has taken astounding leaps in technical and commercial know-how in a relatively short time.

The Offshore Energy Center (OEC) commissioned author F. Jay Schempf to write *Pioneering Offshore: The Early Years* about the offshore petroleum development from its beginning in the late nineteenth century, through the mid-1960's. It incorporates, first hand (on location) stories from the Pioneers inducted into the OEC's Hall of Fame. Industry and Technology Pioneers provide a historical context for their contributions in the industry's advancement and in the development of its distinct technologies during this time period.

*Pioneering Offshore* provides a narrative that, while as chronologically and historically accurate as possible, remains true also to the industry's human spirit. This book offers an intimate feel for the industry's early years and will be essential to grasping the enormous scope of the search for offshore oil and gas during subsequent decades.

We are pleased to provide you with the opportunity to read our story at the special price of \$45.00 plus shipping.
