

## Ocean Star Selfie Scavenger Hunt

Take a selfie with something that...

### First Floor

- 1) Is 12 feet tall and sits on the ocean floor.
- 2) Offshore workers use to get to aboard a rig (not the helicopter).
- 3) Shows geologists different layers of sediment and rock.
- 4) Would be coated in diamonds.
- 5) Has arms and can go up to 2,300 feet underwater.

### Pipe Deck

- 6) Rig workers would climb into if there was an emergency.
- 7) Regulates well pressure.
- 8) Saves sick divers.
- 9) Works like an underwater robot.

### Second Floor

- 10) Preserves artificial homes for fish and corals.
- 11) Weighs 545 lbs.
- 12) Digs trenches.
- 13) Oinks!
- 14) Has explosive charges.

### Third Floor

- 15) Can sink itself halfway and raise back up to carry cargo.
- 16) Shows how fluid moves through rocks.
- 17) Protects a person while they are working.
- 18) Is an oil and gas industry career you would like or think you would be good at (point at the name of career or picture of career in the selfie).
- 19) Is insanely comfortable for workers to sit on.

### Drill Floor

- 20) Lifts the entire weight of the drill string.
- 21) Allows the driller to control the drilling operations.
- 22) Is a space for monitoring drilling conditions.
- 23) Is used to close the blowout preventer when a kick occurs.

When you are finished, check your answers and see how many you got correct!

If you post these selfies online, make sure to tag us  
on [FB@OceanStarMuseum](#) or on [IG@ocean\\_star\\_museum](#)  
and add the hashtag [#oceanstarselfies](#).
